CV 2017

QTAKE VIDEO ASSIST + DIT or **2nd AC/DIT/VIDEO** or **PHANTOM TECHNICIAN**

Owner Operator @ Digital Video Assist New Zealand Ltd - Video Assist and DIT services, trusted since 2003.

Often combining video assist and DIT as a one person team, DVANZ TVC kits offer mobile QTAKE Video Assist, with the latest wireless solutions from our wide selection, offering monitors 7" - 40" with daylight viewable and OLED options. All Qtake and monitors up to 32" can be run from batteries all day if needed.

We have a wide selection of over 10 sets of wireless video systems from Teradek and the cost effective and long range Ghost Eye systems, as well we can send the qtake video feed wirelessly out to ipads on set.

DIT is most often run from inside one of our 3 equipped vans with a Mac Pro DIT rig to offer better quality control, speed, a large 8-bay RAIDed storage and colour grading options.

For mobile or travel jobs we have the current model Macbook Pro laptop which is also very fast with SSD RAID drives.

A latest addition is our 19" Atomos Sumo, a daylight viewable recordable director's monitor. We added battery plates, monitor stand and wireless mounts, a top handle, sunshade and anti reflective screen cover. We think you will love it.

Here too is a list of some of my TVC work this year, when I was not looking after long form projects with 5 crew.

"Bud Light" Superbowl commercial	Otto Empire	DIT
"Toyota"	Robber's Dog	Video Assist Operator
"L&P"	Robber's Dog	Video Assist Operator
"KFC"	Penguin Empire	Video Assist Operator/DIT
"Air NZ"	Waitemata Films	Video Assist Operator/DIT
"Meridian"	Eight	Video Assist Operator/DIT
"National Geographic"	Reel Factory	Phantom 4K Operator
"Evil Dead"	Starz	EPK Video/DIT
"Mastercard"	Waitemata Films	Video Assist Operator/DIT
"NZ Post"	Flying Fish	2 nd AC, Video Assist, DIT
"Mastercard"	Robber's Dog	Video Assist Operator/DIT
"MKR Promo"	TVNZ	Video Assist Operator/DIT
"Youi"	Finch	Video Assist Operator/DIT
"Aoi Nissei Dowa Insurance"	Japco	Video Assist Operator/DIT
"Oceania"	Film Construction	Video Assist Operator/DIT

Wanting US style DIT with Live Grading?

Onset DIT services can offer LUT boxes and OLED or 10 bit monitors onset, just like in the US. We can also combine these with our QTAKE rigs or simply at camera to offer onset looks for the DP to easily adjust.

DITs we often work with are Pete Harrow and Chris Rudkin, either on TVC or drama work, as well as others. Pete was the DIT on Pete's Dragon, Thor and Pacific Rim 2 and Chris was dailies colorist for the Hobbit films, and Lion.

In our long history we have supported over 700 TVCs, numerous TV series and NZ based feature films since 2003 supporting a huge number of the country's best video assist and DIT technicians. At DVANZ, we are passionate about growing with and supporting a creative and positive New Zealand film industry. We love being on set and offer a trusted, reliable and friendly professional service.

Some of the directors I have worked with in 2015 and 2016: Fredrick Bond, Ballie Walsh, Noah Marshall, Johnathan Glazer, Nathan Price, Adams Stevens, Joel Kefali, Daniel Borgman, Hamish Rothwell, Peter Burger, Robert Sarkies, Zia Mandviwalla.

2nd AC or Phantom Technician has also been roles I have combined with video and DIT on smaller jobs, depending on the workload. Working best with wireless auto recording monitors and fast laptop data stations, this can be achieved.

Continued over the page for other contracts we have covered.
